

Chronic Care Management Success Powered by ChronicCareIQ & athenahealth

Helping providers care for complex patients more easily, manage medical practices more efficiently, and generate significant monthly recurring revenue.

What to Listen For in Customer Conversations

- Practices with a large Medicare population.
- Providers frustrated by non-billable work.
- Practices struggling with patient engagement between visits.
- Groups exploring value-based care participation.

Why it Matters for Your Customers

- **Support High NPS:** Patients feel more secure, connected, and cared for between visits.
- **Drive New Revenue:** Capture reimbursement for work providers already do — on average an additional \$13,206 per provider in net-new, monthly revenue.
- **Reduce Hospitalizations:** Practices using CCIQ report a 29.4% reduction in all-cause hospitalizations.
- **Easy to Use:** Works seamlessly within athenahealth workflows (SSO, billing, reporting).
